The Center for Cognitive and Brain Sciences (CCBS) is dedicated to advancing the study of mind, brain and formal models of cognitive processes. The Center promotes interdisciplinary research in cognitive science and cognitive neuroscience, bringing together disciplines from across campus and like-minded researchers.

We invite you to join us for this special two-day event to discuss ongoing research with the cognitive science community at Ohio State and interact with faculty and students from across the University who are exploring questions related to human cognition, including learning, memory, perception, language, and decision making, from behavioral, applied, computational modeling, and cognitive neuroscience perspectives.

SATURDAY, FEBRUARY 8
2:00 - 6:00 PM
Wexner Center for the Arts- Film/Video Theater
Free - No tickets required

Arrival
(Villeneuve, 2016)
Film Screening
& Presentation
by Special Guest
Jessica Coon, Ph.D.
(McGill University)

Enjoy this science fiction thriller and partake in a thought-provoking conversation with associate professor of linguistics at McGill University, Canada Research Chair, and linguistics expert consultant on the film. Dr. Coon’s presentation, geared to a broad audience of non-experts and experts alike, reflects on her experiences working on the film and discusses its central linguistic themes. Additionally, Dr. Coon will talk about linguistic fieldwork and highlight the importance of linguistic diversity. Attendees will also be able to participate in a special Q&A session with Dr. Coon following her presentation.

RSVP by January 24th to attend dinner with the CCBS community following the film.

FRIDAY, FEBRUARY 14

Undergraduate Poster Session & Reception
1:00 - 2:30 PM
Thompson Library
11th Floor, Campus Reading Room

Join us as Ohio State University undergraduates present their research posters to the cognitive science community. Interact with faculty and students from disciplines across campus and discuss research questions related to advancing the study of mind, brain, and formal models of cognitive processes.

Interested in presenting? Submit your abstract for consideration!

Deadline for submission: Tuesday, January 21st [midnight]
Notification of acceptance: Monday, January 27th
